I'm Daniel, a dedicated software engineer with over two years of experience. Specializing in React.js and Node.js, I create high-quality, user-focused web applications that turn complex problems into intuitive solutions.

Work Experience

Frontend Web Developer

Sep 2022 – Sep 2023 | Remote

eJump Media

- Optimized and refined user interfaces with React.js, ensuring visual consistency across applications and leading to a superior user experience.
- Participated in the design and development of VMS - Fleet Management, a fundamental web application for Autonom, contributing significantly to improving their car rental management efficiency.
- Managed the full-cycle development of mobile applications using React Native, particularly for the Carfix App, fostering significant business growth.
- Occasionally contributed to backend development tasks, enhancing team workflow and efficiency.

Indie Game Developer

2018 – 2021 | Remote

Leo Games

- Involved in every aspect of mobile game development, from idea generation to final publication, utilizing Unity and C#.

Education and Certifications
